Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a Quayle action. Continuation of 3(c) Other:

First and foremost, the applicants are cordially thanked for the 'Amendment' filed 9 May 2006. However, several seemingly non-compliant amendments have been discovered in the aforementioned response, requiring attention before examination may continue.

37 CFR § 1.121(d) requires, "All changes to the drawings shall be explained, in detail, in either the drawing amendment or remarks section of the amendment paper."

See also MPEP § 714(II)(D) which requires, "An explanation of the changes made must be presented in the 'Amendments to the Drawings' or the remarks section of the amendment document."

In contrast, the 'Amendment' filed 9 May 2006 neglects to provide a detailed explanation of the changes being made to the drawings.

The provided 'Amendments to the Drawings' section (see Page 15 of the 'Amendment' filed 9 May 2006) merely states, "The attached sheets of drawings include 9 sheets of formal drawings depicting FIGS. 1-10. Please substitute these sheets for the informals currently on file." From this statement, it is not at all clear what changes the applicants are making to the drawings.

For instance, the examiner respectfully notes that an illustrated line connecting blocks 51 and 34 has been removed from Replacement Figure 1. Similarly, new line connections have been formed between blocks 152 & 154, and between blocks 147 & "END" in Replacement Figure 8. Such structural alterations to the illustrations constitute well more than formalized versions of the originally submitted drawing sheets.

The examiner respectfully requests that the applicants please explain, in detail, in either the drawing amendment or remarks section of the amendment paper, all changes being made to the drawings. Furthermore, the examiner respectfully reminds the applicants that a marked-up copy of any amended drawing figure, including annotations indicating the changes made, may be included. The marked-up copy must be clearly labeled as "Annotated Sheet" and must be presented in the amendment or remarks section that explains the change to the drawings [see 37 CFR § 1.121(d)(1)].

By such reasoning, this Notice of Non-Compliance is deemed necessary and proper at this time.

Please note: The amendments have not been checked to the extent necessary to determine the presence of all possible non-compliance errors. If additional issues of non-compliance are discovered in a subsequent amendment, yet another Notice of Non-Compliant Amendment will unfortunately be necessitated. Applicants' cooperation is requested in correcting any other errors of which applicants may become aware.

The applicants are hereby notified that the examiner's art unit has recently changed from Art Unit 2673 to Art Unit 2629, please direct all future correspondence accordingly. Thank you.
